BEHRINGER V-TONE GMX212 Lead Guitar Amp.

The V-TONE GMX212 is the flagship in the new V-TONE guitar amp series with 2 x 60 Watts, featuring two 12" JENSEN® / BUGERA™ speakers and authentic V-TONE analog modeling combined with integrated multi-effects and tuner. The GMX212 offers two full-featured modeling channels that boast 3 classic guitar amps, 3 speaker simulation models plus 3 gain modes each—all individually selectable. Ultra-flexible FXT function allows independent effects settings on each channel, while the patented* DYNAMIZER® circuitry captures every nuance of your playing and lends tube-like compression to your tone. The 24-bit stereo multi-effects processor with world-class effects such as chorus, flanging, phasing, rotary, auto-wah, echo, delay, compressor and various effect combinations offers 99 user presets and MIDI control. The integrated auto-chromatic tuner is controllable via footswitch.
